About The Onyx Collection

The Onyx Collection manufactures shower bases, shower wall panels, lavatories, tub surrounds, shower seats, accessories and trim to your specifications in almost any color, shape and size. Founded in 1985, the Onyx Collection now employs over 500 in Northeast Kansas. Quality products, our "Yes! Guaranteed Forever" guarantee, quick delivery, ease of installation and our unique chemistry and design have made us legends in the industry.

Yes! Guaranteed Forever

Lavatories - Rectangle

All Rectangular Lavatories have at least one integral (molded in) bowl. All rectangular lavatories have an integral backsplash and are based on standard cabinet sizes. Our standard depths are 19", 22" and 22 1/2". Standard rectangular lavatories may have flat or raised edges.

Lavatories - Custom Shape

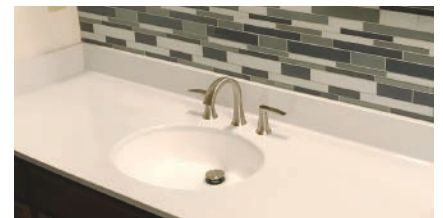

Custom shape lavatories can be any length, depth, thickness, or shape and can incorporate any of our bowl styles and edge styles. Please specify faucet hole spacing when ordering: 4" is typical for a one-piece faucet set; 8" is used for three piece sets. We can also do single holes, and even add an extra hole for a soap dispenser if requested. Common depths for custom shape lavatories are 19", 22", 22 1/2", 25" & 25 5/8".

Shower Wall Panels

Available in 5 finishes: Gloss, Matte, Stone Tile, Subway Tile, & 8"x24" Wavy Tile. Onyx wall panels are 3/8" thick and come standard with 2 finished edges.

Shower kits are commonly 78", 84", 90", 96", 102" or 108" high.

Gloss

Our most popular finish, the smooth Gloss Finish gives a classic appearance with an easy to clean smooth surface. All colors are available in the Gloss Finish. Also, Inlay Stripes and Picture Inlays are available in the Gloss Finish.

Max Panel Size: 144 1/2" x 100 7/8"

Stone Tile

Our production mold was made from natural 12" x 12" stone tiles which gives each wall panel the look of stone tile without the worry of leaking grout seams. All colors are available in Stone Tile Finish.

Max Panel Size: 104 7/8" x 93 1/4"

Shower Wall Panels

Subway Tile

Subway Tile Wall Panel Finish is a smooth, flat tile design with faux grout lines. -- The size of the "tile" is 3" x 9 5/8" and the 1/4" wide grout groove is 1/32" deep. Subway Tile panels are priced the same as Smooth Gloss.

Max Panel Size: 105³/₄" x 87¹/₂"

8" x 24" Wavy Tile

The Wall Panel Finish is a glossy tile design with faux grout lines. The size of the tiles are 8" high and 24" wide. Wavy panels are priced the same as Smooth Gloss.

Max Panel Size: 104⁷/₈" x 96"

Matte Finish

We achieved our Matte Finish "look" by lightly sanding the panels and then applying a permanent sealer to the surface. There is little to no shine on Matte Finish Panels. Many colors are available in Matte.

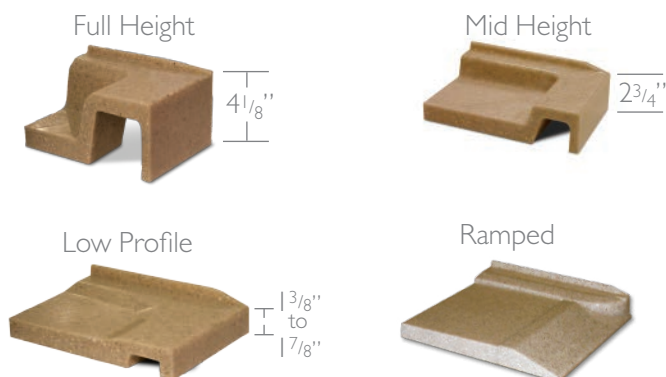

Max Panel Size: 144¹/₂" x 100⁷/₈"

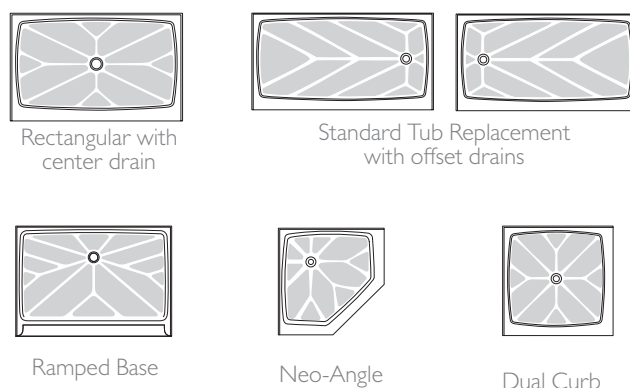

Shower Bases - Standard

A typical Onyx Collection "Standard" shower consists of a shower base and 3 wall panels (2 for Neo-Angle & Dual Curb). A ceiling panel may also be added. All the standard size shower bases and curb styles are listed in this section, along with shower kits which include the wall panels and adhesive & color match silicone for installation.

Curb Style Options

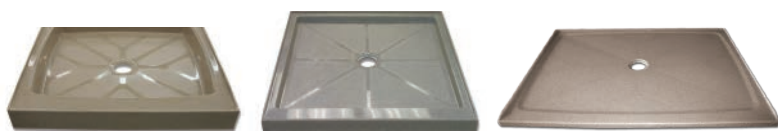

Shape Options

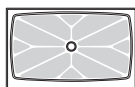

Center Drains

Available in many sizes, center drain standard shower base options will fit almost any bathroom design. A standard size will work for most remodels and can be matched with our wall panels, shower accessories and shower seats.

Installed Showers

Shower Bases - Custom

A typical Onyx Collection "Custom" Shower consists of a shower base and one panel for each wall. An endless variety of custom configurations are possible from traditional designs to elaborate walk-in designs. Any design can be enhanced with wider curbs for glass block walls, ceiling panels and even specially designed components for accessibility including ramped curbs, and low profile curbs.

Curb Options

The Custom Full Height Curb height is 4" tall. This curb height works well with both shower doors and curtains. All curbs have a slope back into the shower area and the shower area has a $\frac{1}{4}$ " per foot slope towards the drain.

The Custom Mid Height Curb height is 2 $\frac{3}{4}$ " tall. The Mid Height is designed with a more modern, straight line look and a lower, narrower curb for easier access and to give a little more room in the shower. It also has the benefit of working well with shower doors and curtains. The shower area has a $\frac{1}{4}$ " per foot slope towards the drain.

The Custom Low Profile Curb height may be as low as 1 $\frac{3}{8}$ " and as tall as 2 $\frac{1}{4}$ " depending on shower size. This lower curb height is good for easy access, adding a ramp, or for recessing into the floor for a curbless entry. The low profile curb has a slope back into the shower area and the shower area has a $\frac{1}{4}$ " per foot slope towards the drain.

The add-on ramp can be used with any low profile shower base. It can be made to any length to accommodate your custom shower design and can be removed if not needed.

The integral add-on ramp is a clean one piece design that makes easy access with wheel chairs. This ramp can be built into any of our shower bases.

Shape Options

With unlimited custom shapes available, all of our custom shower bases are cast in pieces to your specifications and then chemically bonded into a single unit for easy, worry-free installation.
